**Subject:** Conjunctive management guidance

Roger,

I've attached a copy of a letter that will go in the mail tomorrow to you and another letter to approximately 350 groundwater users. The letter to the users informs them of their obligation to provide mitigation, either through joining a mitigation plan sponsored by Water District 34, or under an alternative plan. The letter to you and the advisory committee is very similar, and informs you of the option for the district to acquire water supplies or formulate an alternative mitigation plan.

Please feel free to call me tomorrow and we can discuss any questions you might have.

Nick Miller, P.E.
